☐ a review involving 868 soldiers and about 5 officers was held between 8:30 a.m. and 11:30 a.m. on 30 September. The review was followed by athletic contests. On 30 September, and 1 and 2 October, 25X1 individual trucks, each transporting 2 to 4 officers and about 25 soldiers with trenching tools, left the installation in the direction of Flae. On 1 October, trucks ☐ transporting a total of 27 officers and 115 soldiers with signal equipment left the installation in the direction of Altstaedter Fahnhof. They were 25X1 followed later by truck ☐ which towed a small gun, carried 2 officers and 15 soldiers and proceeded in the same direction. At 7:30 a.m. on 2 October, 16 officers and 130 soldiers carrying signal equipment and armed with rifles marched out of the installation. 2. During the period from 29 September to 2 October, source determined that the Flak Kaserne on Lagdeburger Strasse was occupied only by an advance detail. Only some of the buildings of the installation which, on the previous day had been fully lighted, were lighted on and after 29 September. Source estimated that the installation quartered about 150 soldiers. On and after 30 September, 6 trucks shuttled boxes with billeting equipment and food to the installation. ☐

\* [ ] Comment. The information by source on the occupation of the Generalfeldzeugmeister Kaserne checks with previous information by the same and another source in late August 1952. [ ] it appears plausible that the bulk of the 12th Hvy How Arty Brig (25) and other units of the 6th Arty Div believed stationed in the installation may have been at the post on 2 October.

\*\* [ ] Comment. On 30 September, another source reported the unloading at the Flak Kaserne of two trains of the 3d GIs Army AT Arty Brig of the Third Shock Army and reported that, at that time, the installation was occupied almost to capacity. [ ] That information does not conflict with the present report inasmuch as it also contains large movements on and after 30 September. [ ]
